Notice of Pesticide Use on Roadsides

This May, many roadsides in Grey County will be treated with approved pesticides to kill noxious weeds and control the growth of other troublesome weeds and grasses along guide rails.

Treating Noxious Weeds

From May 1 to May 31, Grey County, Town of the Blue Mountains, Georgian Bluffs, Grey Highlands and Southgate are joining forces to more effectively fight the spread of noxious weeds. The product Truvist will be used to specifically target Wild Chervil, an invasive weed that threatens local agriculture. Truvist contains the active ingredients Chlorsulfuron and Aminocyclopyrachlor. The spray will be applied following the *Pest Control Products Act (Canada)*.

The following County and Municipal roads will be sprayed between May 1 and May 31:

Municipality	Roads	Contact
Grey County	3, 5, 7, 11, 12, 13, 17, 18, 40, 112	Graham Wilson, 1-800-567-4739

Green Stream has been contracted to treat the roadsides. For general and product information, call collect Steve Ford at 1-905-510-1229.		

Treating Weeds and Grasses Along Guide Rails

From May 9 to June 17, Grey County will be spraying roadsides to control weeds and grasses along guide rails on the following roads:

Grey Road 1, 2, 3, 4, 5, 7, 9, 10, 12, 13, 14, 18, 19, 21, 23, 25, 28, 29, 32, 40, 109, 112, 113, 119, 124, 17A, 17B

Arsenal Herbicide and Round Up Transorb HC will be used at these locations. Arsenal contains the active ingredient Imazapyr and Round Up contains the active ingredient Glyphosate. The spray will be applied following the *Pest Control Products Act (Canada)*.

For more information about spraying, contact Graham Wilson, Maintenance Manager, at 519-376-7337 or 1-800-567-4739.

For media inquiries, please contact Rob Hatten, Communications Officer, at rob.hatten@grey.ca or 519-372-0219 ext. 1235.
